

00597. 010908. Freeburg. pcr 2. 40010. G.N.G

Mrs. Freeburg:

Strategically impassable to live and work in the town. Believes the impact will be massive to businesses, property owners, churches, making it impossible to function. Disruptive to the town. Will divide the town. With the length of the trains, will divide the town in to two. Will add to the noise. Lot of open space, large conservation. Citizens for Conservation located here with acres of open land. Mostly concerned with lifestyle and traffic. Already have bad traffic. Few north south arteries here. Would disrupt that, no alternatives with the addition of the train.
